

HOW STRONG IS YOUR TEAM?

Like any structure, organisations are only as strong as the foundations that support them...

In today's corporate culture our personnel are as vital to our business success as our product.

Its not surprising that the worlds largest companies recognise and reward their personnel because they know that the contentment and wellbeing of their team is instrumental in achieving business goals. Lets face it — without stable foundations, even the mightiest buildings would topple and fall.

Our organisations are no different

Basecamp Wallaroo develop tailored programs to enhance your organisation's team strength. Through learning how individuals interact, contribute and evolve in team situations, you can enhance the performance, effectiveness and stability of your team, and maximise your organisational strength and success.

Our highly skilled team of professionals utilise tested team building programs and renowned self-awareness tools to facilitate the negotiation of change, resolve conflict, improve communication between your personnel and strengthen team cohesiveness.

Nestled in Australia's last frontier — the rugged Northern Territory landscape — with it's amazing flora and fauna, fresh air and tropical weather, Basecamp Wallaroo's programs combine physical and mental challenges balanced with team building fun to give you a memorable and enlightening experience. Individuals benefit from expanded self belief, empowerment and esteem, while learning how they and their counterparts contribute to the team dynamic.
